

FOR IMMEDIATE RELEASE: May 26th 2011, Bangalore, India

CAREEMR™ RECEIVES ONC-ATCB 2011/2012 CERTIFICATION AS "COMPLETE EHR"

CareEMR™ version 6.0 is now ONC-ATCB 2011/2012 certified (CHPL Product Number: IG-2551-11-0072) as a Complete EHR by InfoGard Laboratories, Authorized Testing and Certification Body (ONC-ATCB) under the Office of National Coordinator Health Information Technology. CareEMR™ is a flagship product of Binary Spectrum Softech Pvt. Ltd.

This CareEMR™ as a Complete EHR is 2011/2012 compliant and has been certified by an ONC-ATCB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.

"This is an achievement and delight to have been awarded with the ONC-ATCB certification for our solution. Our solution is specifically designed with a focus on improved outcomes and advanced clinical processes. We comply with all criteria and solely aim to deliver enriched clinical care. This milestone showcases our reliability and comprehensiveness in the EHR program that we cater to" said Mr. Ashok Kumar, CEO, Binary Spectrum. "The certification criteria to which CareEMR was certified were on General Criteria (170.302) and Ambulatory Criteria (170.304). We believe that our solution would indeed play a key role in Stages 2 and 3 of Meaningful usage criteria's as well. We aim to consistently provide leading edge technology and support to all our clients and offer efficiency and transparency through our solutions" said Mr. Mitish Chitnavis, COO, Binary Spectrum.

The 2011/2012 criteria support the Stage 1 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA). The detailed specific general and ambulatory criteria on which CareEMR™ v6.0 was tested and certified can be found on the ONC website at <http://onc-atcb/BinarySpectrum>

About ONC-ATCB 2011/2012 certification

The ONC-ATCB 2011/2012 certification program tests and certifies that EHR technology is capable of meeting the 2011/2012 criteria approved by the Secretary of Health and Human Services (HHS). The certifications include Complete EHRs, which meet all of the 2011/2012 criteria for either eligible provider or hospital technology and EHR Modules, which meet one or more — but not all — of the criteria.

"We are pleased to have completed the certification process of the CareEMR so that Binary Spectrum is now able to offer a certified product to providers who wish to

purchase and implement EHR technology and achieve Meaningful Use for the 2011-2012 incentives,” said Stephen Wilson, EHR Program Manager of InfoGard Laboratories, Inc.

This Complete EHR is 2011/2012 compliant and has been certified by an ONC-ATCB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.
